COMPANY OVERVIEW

25
Years Combined Experience

A Trusted Partner Across the Global Energy Value Chain

PetroTwo Group is an integrated holding company providing end-to-end solutions across the oil & gas supply chain. From sourcing and trading to logistics, storage, and financial structuring, we ensure seamless execution for partners and clients worldwide.

■ Our Mission

Deliver reliable, compliant international trading while developing strategic energy infrastructure and long-term partnerships.

■ Our Vision

To become Asia's most trusted, asset-backed energy ecosystem by 2040, one that is resilient, diversified, and built on integrity.

OUR VALUE CHAIN

From Global Sourcing to Strategic Investment

Six integrated stages connect energy sourcing regions with key demand markets, with Indonesia as the strategic hub.

01

Global Energy Sourcing
Trusted producers across the Middle East, Africa, and the Caspian.

02

International Oil Trading
Physical, contract-based trading to key demand markets.

03

Ship-to-Ship Operations
STS transfers in Indonesian waters, fully compliant.

04

Tank Farm Infrastructure
Multi-location storage for supply reliability.

05

Regional Distribution
Efficient delivery across Southeast Asian markets.

06

Strategic Investment
Asset-backed growth into new sectors.

Eleven Pillars, One Group

Diversified operations that reinforce one another, with energy at the core and capital and trade extending our reach.

CORE OPERATIONS

Energy

Crude, refined products, and integrated oil & gas trading across global markets.

Core Business: International Oil Trading

Petro Two Energy operates as an international physical oil trader, focusing on reliable, contract-based supply supported by robust logistics and storage integration.

KEY TRADING PRODUCTS

Light Crude Oil

Gasoline (RON 90)

Refined Petroleum Products (EN 590 10 ppm, Jet A1)

TRADING MODEL

Physical, delivery-based transactions

Long term and spot supply contracts

Integrated with storage, STS and maritime logistics

Risk managed and compliance driven execution

Marine

Tanker fleets, LNG shipping, and ship-to-ship operations with full compliance.

Ship To Ship (STS) Operations

KEY HIGHLIGHTS

Since early 2026, Petro Two has provided Ship-to-Ship (STS) facilities in Indonesia to support international oil trading activities

End-to-end STS coordination, including vessel scheduling, cargo transfer, and operational supervision

Operations conducted under strict safety, maritime, and regulatory compliance standards

STS OPERATION COORDINATES

1°11'39.00" N / 103°57'39.00" E

1°10'24.55" N / 103°57'39.00" E

1°10'24.55" N / 103°58'32.00" E

1°11'45.30" N / 103°58'32.00" E

Storage

Tank farms and terminal infrastructure across strategic trade corridors.

Tank Farm Development

Petro Two Energy is developing a multi-location tank farm infrastructure strategy across Indonesia, including a strategic development in the Arun area, to support international oil trading, storage optimization, and regional energy security. This integrated tank farm network is designed to strengthen Petro Two's physical trading capabilities while positioning Indonesia as a regional energy storage and logistics hub.

LOCATION PLAN

Pidie, Aceh

Weh Island, Aceh

Arun, Aceh

STRATEGIC OBJECTIVES

Support International Oil Trading and Storage Operations

Enhance logistics efficiency and supply reliability

Karimun, Kepulauan Riau

Karawang, West Java

Enable STS and FSU integration

Deliver scalable, long term, asset backed infrastructure

Technology

Digital platforms and industrial technology powering the group ecosystem.

INVESTMENT & LIFESTYLE

Capital

Structured finance and strategic investment across energy and infrastructure.

Non Oil Strategic Investment (PPP)

Beyond its core oil trading and energy infrastructure business, Petro Two Energy selectively invests in non-oil strategic sectors through Public-Private Partnership (PPP) frameworks. These investments are designed to support national development priorities while maintaining strong alignment with Petro Two's long-term asset strategy and governance standards.

INVESTMENT PRINCIPLES

Infrastructure led projects with tangible, long term assets

Government aligned programs supporting national and regional development

Focus on long term economic impact and sustainability

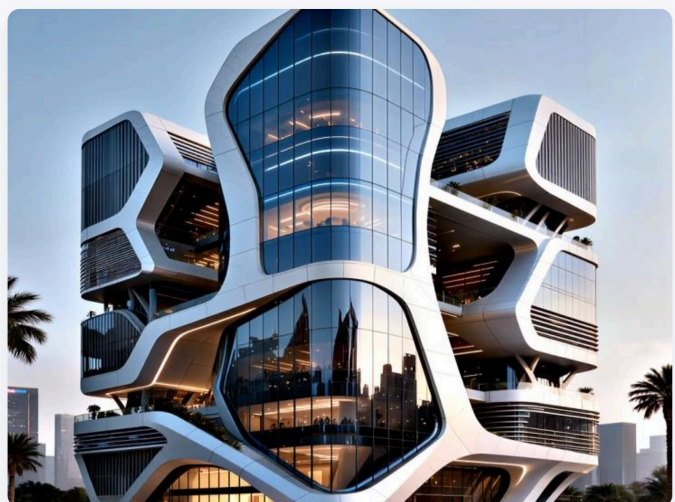

Risk sharing structures with transparent and accountable governance

All investments remain aligned with Petro Two's energy-led infrastructure strategy.

Hotels

Hospitality assets and premium property development in growth cities.

Bullion

Physical gold trading and asset-backed bullion programs.

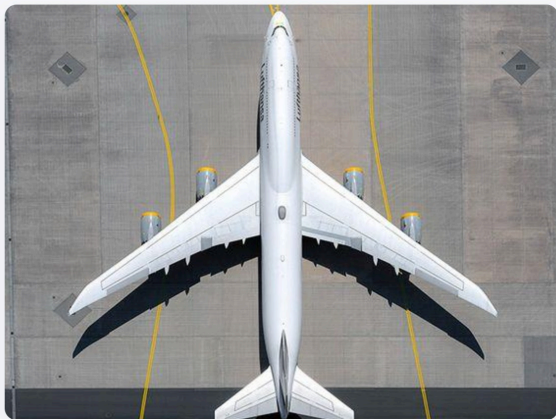

Food

Food security ventures spanning aquaculture, sourcing, and distribution.

GLOBAL VENTURES

International

Cross-border trading, aviation, and logistics connecting global partners.

Global Network & Strategic Partnerships

Petro Two Energy is a globally connected energy company, originating from Thailand, operating and collaborating with partners across multiple regions to support international oil trading and strategic energy investments. With extensive cross-border experience, Petro Two leverages its global network to connect energy sourcing regions with key demand markets, using Indonesia as a strategic operational and logistics hub.

KEY REGIONS OF EXPERIENCE

The Middle East serves as our primary hub for crude oil sourcing and international energy trading networks.

Africa strengthens our supply origination capabilities and cross-border petroleum trading operations.

Southeast Asia integrates our oil trading, maritime logistics, and energy infrastructure activities.

The Caspian Region reflects our long-standing track record and credibility in the global energy industry.

GROUP COMPANIES & PARTNERSHIPS

We maintain active partnerships with oil producers, commodity traders, infrastructure operators, and government-linked entities.

PT Pidie Terminal Energi leads our tank farm development and energy storage operations in Indonesia.

PT Motiolabs Energi Indonesia operates the group's energy technology and trading administration platform.

Plantation

Sustainable agriculture and integrated smart-farming estates.

FARMASì

Pharmaceutical

Healthcare and pharmaceutical distribution through the FARMASì network.
