V.1 2026

www.petrotwogroup.com

Corporate Snapshot

Business Focus

International Oil Trading & Strategic Energy Infrastructure Investment

Core Activities

Oil trading, ship-to-ship operations, floating storage, tank farm investment

Operating Regions

Indonesia, Southeast Asia, Middle East, Africa

Strategic Positioning

Indonesia as a regional energy trading and storage hub

Head Office

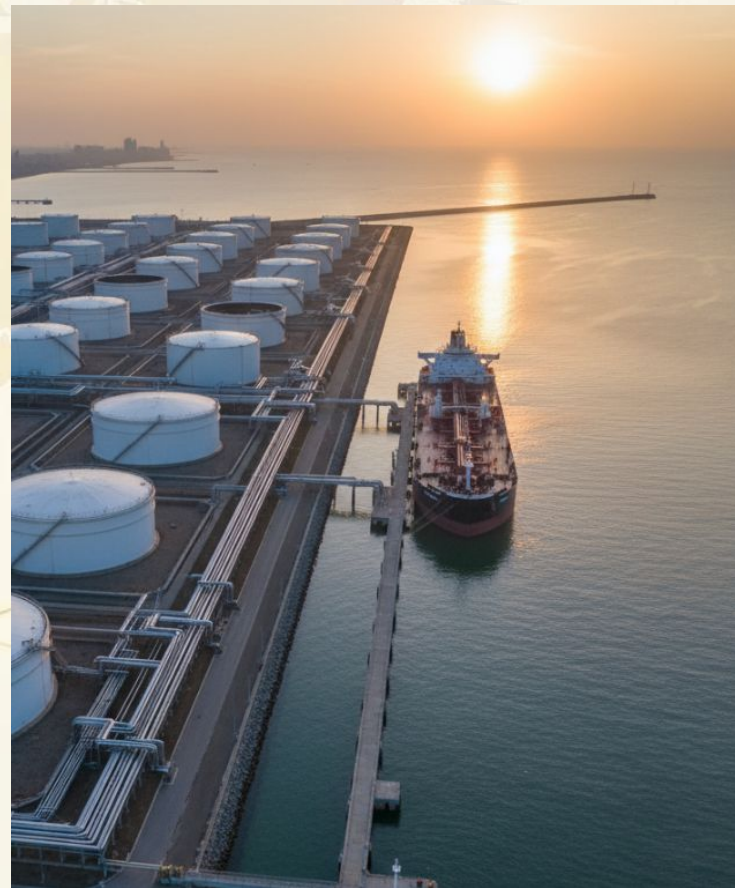

Jakarta, Indonesia

Corporate Overview

Petro Two Energy is an international oil trading and strategic energy investment company focused on physical energy supply, logistics-backed operations, and long-term infrastructure development.

With Indonesia as its operational base, Petro Two integrates global sourcing capabilities with regional storage and distribution assets to support energy security, efficiency, and sustainable growth.

Vision, Mission & Strategic Direction

Vision

To become a trusted international energy trading and investment platform, strengthening regional energy security through asset-backed operations.

Mission

- Deliver reliable and compliant international oil trading services
- Develop strategic energy infrastructure in Indonesia
- Build long-term partnerships with global stakeholders
- Support national and regional energy resilience

Strategic Direction 2026 - 2030

- Scale international oil trading volumes
- Invest in tank farm and storage infrastructure
- Optimize STS and maritime operations
- Expand strategic investments via PPP frameworks

Board of Directors & Management

Yanvi Alex
Director

Dr. Abdul Malek
Commissioner

**Dr Nanprapha
Kawinrutaipreeda**
Independent Commissioner

Brings over **25 years of experience** in the energy sector across **offshore, upstream, and downstream hydrocarbon operations**, with a proven track record in leading **fast-track, technically complex MOPEX projects** across international markets.

Core Business : International Oil Trading

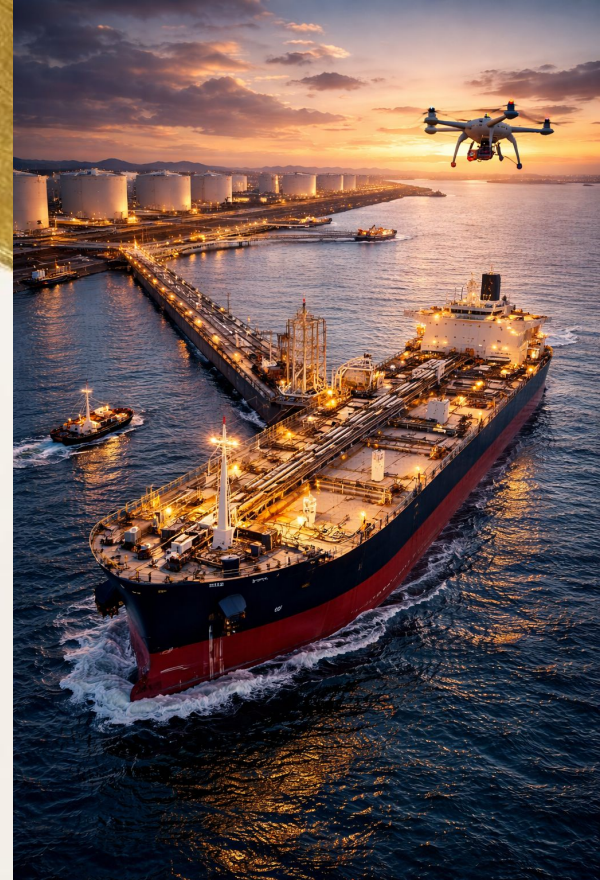

Petro Two Energy operates as an **international physical oil trader**, focusing on reliable, contract-based supply supported by robust logistics and storage integration.

Key Trading Products :

- Light Crude Oil
- Gasoline (Ron 90)
- Refined Petroleum Products (EN 590 10 ppm, Jet A1)

Trading Model

- Physical, delivery-based transactions
- Long term and spot supply contracts
- Integrated with storage, STS and maritime logistics
- Risk managed and compliance driven execution

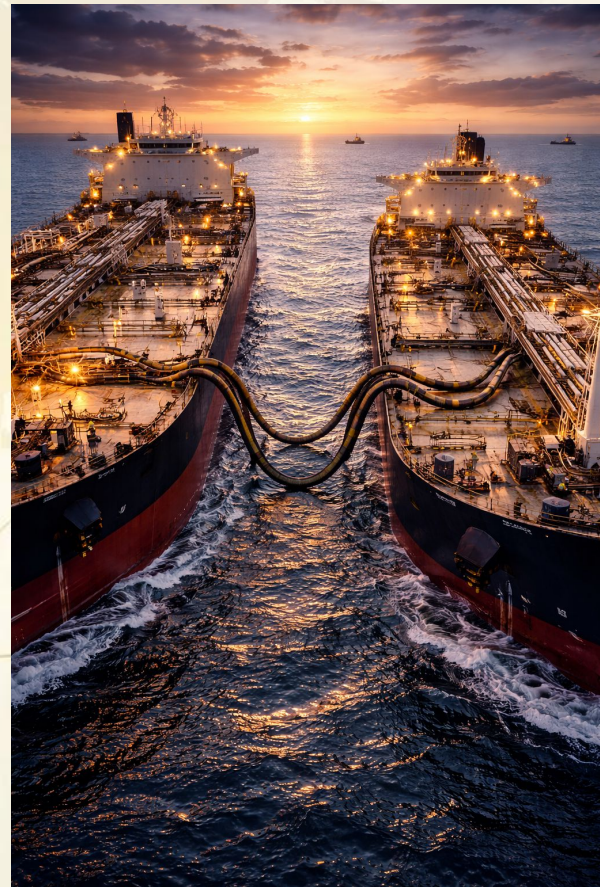

Ship To Ship (STS) Operations

Key Highlights

- Since early 2026, Petro Two has provided **Ship-to-Ship (STS) facilities in Indonesia** to support international oil trading activities
- End-to-end **STS coordination**, including vessel scheduling, cargo transfer, and operational supervision
- Operations conducted under **strict safety, maritime, and regulatory compliance standards**

STS Operation Coordinate :

- 1°11'39.00" N / 103°57'39.00" E
- 1°10'24.55" N / 103°57'39.00" E
- 1°10'24.55" N / 103°58'32.00" E
- 1°11'45.30" N / 103°58'32.00" E

Tank Farm Development

Petro Two Energy is developing a **multi-location tank farm infrastructure strategy across Indonesia**, including a **strategic development in the Arun area**, to support international oil trading, storage optimization, and regional energy security.

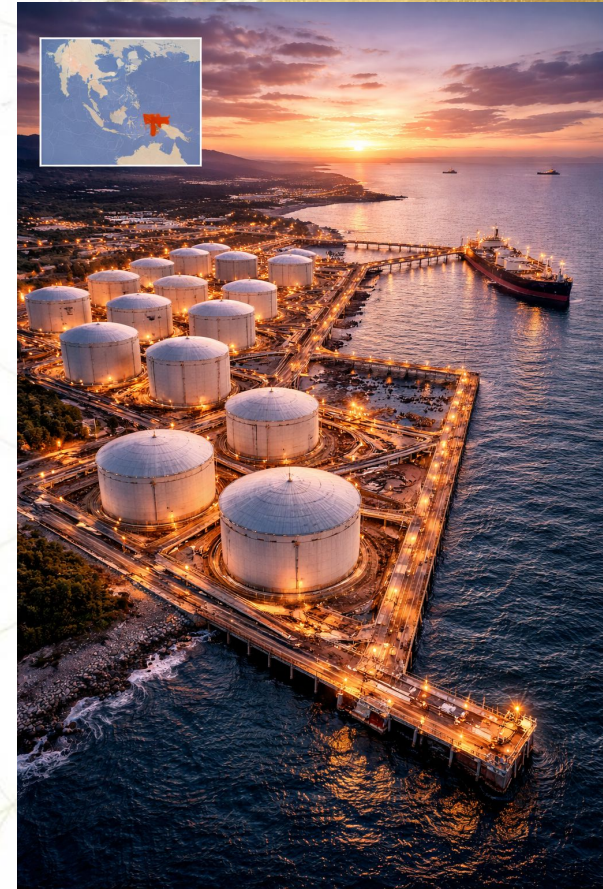

This integrated tank farm network is designed to strengthen Petro Two's **physical trading capabilities** while positioning Indonesia as a **regional energy storage and logistics hub**.

Location Plan :

- Pidie Aceh
- Weh Island Aceh
- Arun, Aceh
- Karimun, Kepulauan Riau
- Karawang, West Java

Strategic Objectives :

- Support International Oil Trading and Storage Operations
- Enhance logistics efficiency and supply reliability
- Enable STS and FSU integration
- Deliver Scalable, long term, asset backed infrastructure

Non Oil Strategic Investment (PPP)

Beyond its core oil trading and energy infrastructure business, Petro Two Energy selectively invests in **non-oil strategic sectors** through **Public–Private Partnership (PPP)** frameworks.

These investments are designed to support **national development priorities** while maintaining strong alignment with Petro Two's long-term asset strategy and governance standards.

Investment Principles

- Infrastructure led projects with tangible, long term assets
- Government aligned programs supporting national and regional development
- Focus on long term economic impact and sustainability
- Risk sharing structures with transparent and accountable governance

All investments remain aligned with Petro Two's energy-led infrastructure strategy

Global Network & Strategic Partnerships

Partnerships with producers, traders, infrastructure operators, and government-linked entities

Petro Two Energy is a **globally connected energy company, originating from Thailand**, operating and collaborating with partners across multiple regions to support international oil trading and strategic energy investments.

With extensive cross-border experience, Petro Two leverages its global network to connect **energy sourcing regions with key demand markets**, using Indonesia as a strategic operational and logistics hub.

Key Regions of Experience

- **Middle East** – primary sourcing and trading networks
- **Africa** – supply origination and cross-border operations
- **Southeast Asia** – trading, logistics, and infrastructure integration
- **Caspian Region** – legacy experience demonstrating long-term industry credibility
