

CIF (Cost, Insurance, and Freight) STANDARD PROCEDURE

Prosedur Standar Transaksi CIF

1. ICPO Issuance

The Buyer issues an Irrevocable Corporate Purchase Order (ICPO) on official company letterhead, including full banking details and a valid Buyer ID (preferably an international passport).

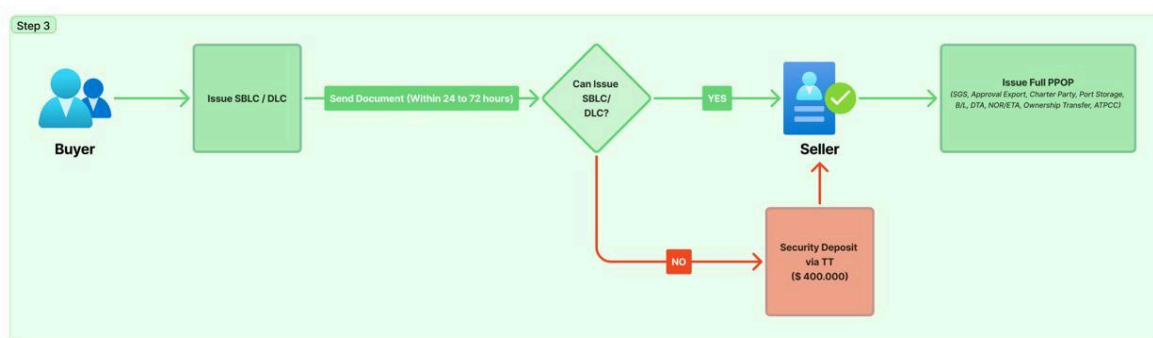

Pembeli menerbitkan Irrevocable Corporate Purchase Order (ICPO) di atas kop surat resmi perusahaan, mencantumkan detail perbankan lengkap dan identitas pembeli yang sah (disarankan paspor internasional).

2. Draft Contract (SPA) Preparation & Signing

Within 24 to 72 hours, the Seller issues a drafted Contract (open to any changes) to the Buyer. The Buyer signs, seals, and returns the Contract before the expiration date to the Seller for final approval.

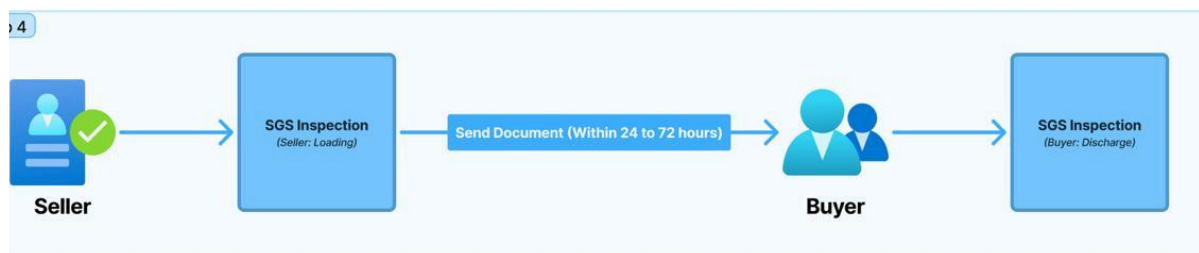

Dalam waktu 24–72 jam, Penjual menerbitkan draf Sales and Purchase Agreement (SPA) untuk ditinjau. Pembeli menandatangani, memberi stempel, dan mengembalikan SPA kepada Penjual sebelum masa berlaku berakhir untuk disetujui secara final.

3. Financial Instrument or Security Deposit

Within 10 banking days, the Buyer's bank issues a Standby Letter of Credit (SBLC) via MT760 or Documentary Letter of Credit (DLC) via MT700 to the Seller's fiduciary account. If unable, the Buyer must transfer a security deposit of USD 500,000 via MT103 to the Seller's designated fiduciary or refinery account. This amount will be deducted from the first shipment payment.

Dalam waktu 10 hari kerja bank, bank Pembeli menerbitkan Standby Letter of Credit (SBLC) melalui MT760 atau Documentary Letter of Credit (DLC) melalui MT700 ke rekening fidusia Penjual. Apabila tidak memungkinkan, Pembeli wajib mentransfer deposit jaminan sebesar USD 500.000 melalui MT103 ke rekening fidusia atau kilang yang ditunjuk Penjual. Jumlah ini akan dikurangkan dari pembayaran pengiriman pertama.

4. Full POP Release & Performance Bond (2%)

Upon confirmation of the financial instrument or deposit, the Seller issues complete Proof of Product (POP) documents and a 2% Performance Bond to the Buyer's bank within 3 business days prior to loading.

Setelah konfirmasi instrumen keuangan atau deposit diterima, Penjual menerbitkan dokumen lengkap Proof of Product (POP) dan Jaminan Kinerja 2% (Performance Bond) kepada bank Pembeli dalam waktu 3 hari kerja sebelum proses pemuatan.

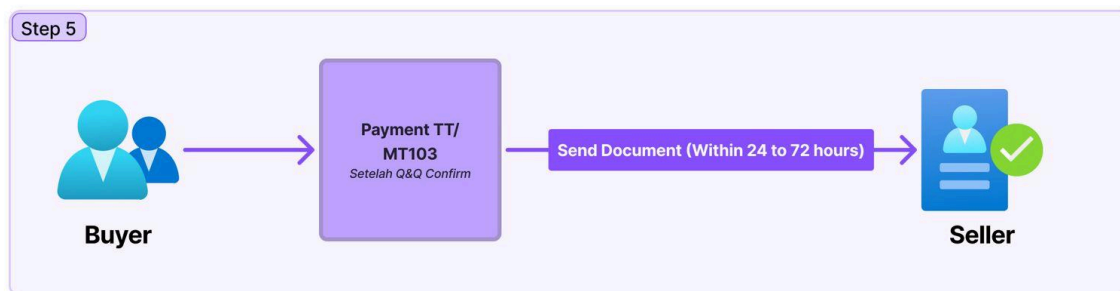

Included POP Documents / Dokumen POP yang Diterbitkan:

- Refinery Supplier Commitment / Komitmen Kilang
- Certificate of Origin / Surat Keterangan Asal
- Product Availability Statement / Pernyataan Ketersediaan Produk
- Export License / Izin Ekspor
- Charter Party Agreement / Perjanjian Charter Kapal
- Bill of Lading, SGS Report, DTA, NOR/ETA, ATPCC, NCNDA/IMFPA

5. Shipment & SGS Inspection

Shipment and loading commence as per the agreed delivery schedule. The product arrives at the Buyer's discharge port within 5–21 banking days. SGS inspection is carried out at both ports — Seller bears cost at loading port, Buyer at discharge port.

Proses pemuatan dan pengiriman dilakukan sesuai jadwal yang disepakati. Produk tiba di pelabuhan bongkar Pembeli dalam waktu 5–21 hari kerja bank. Inspeksi SGS dilakukan di kedua pelabuhan — biaya di pelabuhan muat ditanggung Penjual, biaya di pelabuhan bongkar ditanggung Pembeli.

6. Final Payment & Commission Settlement

The Buyer releases final payment via TT/MT103 within 4 banking days after receiving shipping documents and SGS/CIQ Q&Q confirmation at the destination port. Seller settles commissions via SWIFT MT103 within 72 hours to all intermediaries as per the signed NCNDA/IMFPA.

Pembeli melakukan pembayaran akhir melalui TT/MT103 dalam waktu 4 hari kerja bank setelah menerima dokumen pengiriman dan konfirmasi SGS/CIQ Q&Q di pelabuhan tujuan. Penjual menyelesaikan pembayaran komisi melalui SWIFT MT103 dalam waktu 72 jam kepada seluruh perantara sesuai dengan perjanjian NCNDA/IMFPA yang telah ditandatangani.
